

FLAGSHIP DEMONSTRATION

Sample Area Comparison Report

An illustrative example showing how HIDD can organise a side-by-side buyer review. District names and findings in this document are fictional.

RESOURCE TYPE	EDITION	VERSION
Comparison Report	Demonstration Edition	1.0
COVERAGE	FORMAT	STATUS
Illustrative District A and B	PDF	Sample only

What this sample demonstrates

- A concise executive comparison for a buyer decision.
- Clear separation between verified evidence, analyst interpretation, and unresolved questions.
- A final recommendation framed as Proceed, Proceed with Conditions, or Do Not Proceed.

Comparison framework

The example below is deliberately illustrative. It demonstrates structure rather than making claims about a real Lagos district.

Assessment area	Illustrative District A	Illustrative District B
Flood resilience	Further drainage verification needed	Preliminary position appears stronger
Title security	Document trail incomplete	Document trail supplied for review
Planning certainty	Use confirmation outstanding	Planning information requested
Infrastructure	Access pressure requires site review	Access appears more established
Market liquidity	Narrower buyer pool	Broader comparable evidence requested

Questions before reliance

- Has each source document been independently verified?
- Does the property-specific inspection support the district-level view?
- Are price differences explained by condition, title, access, or seller positioning?

Decision summary

PROCEED

No material blocker identified within scope. Record normal completion items.

PROCEED WITH CONDITIONS

Move only after the specified verification, remediation, or pricing conditions are satisfied.

DO NOT PROCEED

A material issue remains unresolved or the buyer position cannot presently be justified.

Illustrative verdict

Proceed with Conditions

This sample verdict exists only to demonstrate report hierarchy. A real verdict would be issued only after the agreed property, document, location, and valuation work is completed by the responsible professionals.

Important limitation

This document is a user-interface and document-design sample. It does not assess any real property, district, title, building, price, or transaction and must not be used to make a purchase decision.
